

The First Grade Forecast

We have had a very busy week here at LITH. We had some special visitors come to our school from the fire department and teach us all about fire safety. We had a fantastic assembly today that they students LOVED! Here are some of the other activities we have been doing this week.

This week during centers we worked on short and long vowels, reading comprehension, story writing, and sentence structure. We practiced our sight words and spelling words. We also learned about the ed ending on verbs to make them past tense.

This week we reviewed our vocabulary words by doing a variety of different activities. It's amazing how well they remember these words and how often they are using them in their daily conversations and writing. 😊

In Math we have practiced counting pennies, nickels, and dimes. We talked about the purpose of money and how it is used. We will continue this concept next week.

In science we have wrapped up our unit on weather. We will begin learning about plants next week.

The students received five new Dolch words to add to their word bag. Please be sure to practice these words each night.

Upcoming Events:

April 13- Progress Reports Go Home

May 18- Early Release: 12:30
