

The First Grade Forecast

We have had a busy and very fun week here at Lake in the Hills. We celebrated Dr. Seuss's birthday today, which is actually on Saturday. In honor of this remarkable author, we made green eggs and ham. They were very yummy! 😊 We did a fun writing activity to go along with this. It was a great day. Here are some of the other activities we have been doing this week.

During centers this week students continued working with sight word recognition, writing, s blends, ABC order, and story comprehension. We also practiced vowel teams. Next week we will do some fun Dr. Seuss activities during centers.

Our word of the week was bright. Students have discussed the meaning of the word bright. Students gave examples of things that are bright. We also talked about the alternate meaning of the word. The word bright has been added to our vocabulary notebooks.

In Math we have been working on place value. We have learned that every number has its own place. We have discussed tens and ones this week. We have practiced making numbers with tens and ones. We will continue this concept next week and also introduce graphing.

In science we have been learning about dental health. We had some special visitors from the health department come to speak to us about caring for our teeth. We will wrap this concept up next week.

The students received five new Dolch words to add to their word bag. Please be sure to practice these words each night.

Next week we will continue to work with Dr. Seuss. If you have Dr. Seuss books at home, please have your child select one that we can share in class. Thanks 😊

Enjoy your weekend! 😊

Upcoming Events:

March 2- No School- Teacher
Institute Day
